

**2002 - 2003
Yearbook**

BAY AREA

GENEALOGICAL

SOCIETY

2002 - 2003

FROM THE PRESIDENT

The Bay Area Genealogical Society is a dream come true for me, and I will never forget your efforts to make it such a great success. Your participation has made all I have done for the society worthwhile.

I have learned so much in forming this society, many of the lessons would have been a great benefit earlier in my life; however, I hope that some of my earlier experiences have helped with the formation of our society.

This yearbook that contains all of your names, addresses and memories will remain with me as long as I live. As I look through it in the years to come, I will remember each of you and the part you played in my life and the society to make it the active, high- energy organization that it is today.

I hope the society meets your needs with excellent speakers, classes and training, as you trace your families history.

With such enthusiastic members from which to choose officers and committee chairmen and the support you have given the society so far, you cannot help but increase your membership yearly. It will only be through you and the future efforts you are willing to put forth that great things will be accomplished. I look forward to seeing this happen.

Carolyn Hellen
